SUMMARY

M.Sc Postgraduate in Computer Science skilled in HTML, CSS, JavaScript, Python, MySQL, and GitHub. Completed a 4-month remote internship in frontend development, building responsive and user-friendly web interfaces.

INTERNSHIP

Daxy - The Digital Taxy   Sep 2024 – Dec 2024
Frontend Developer Intern (Remote)   Mumbai,india

- Built responsive and user-friendly web pages using **HTML**, **CSS**, and **JavaScript**.
- Collaborated with the team to enhance website design, layout, and interactivity.
- Improved website performance and cross-browser compatibility.
- Gained hands-on experience in real-world frontend development workflows.

PROJECT DETAILS

1. Tweetify – A Mini Blogging Platform

Developed a full-stack Django web app for creating and managing blog posts with user authentication and a responsive interface.

Key Features:

- Designed and configured Django **Admin Panel** and **App Setup** for efficient data management.
- Created **Navbar, Forms, and Models** for user input and post management.
- Built **Views** to handle post creation, updates, and display functionality.
- Integrated **Jinja templates** for dynamic content rendering.
- Implemented **Custom User Registration and Authentication** using Django's built-in auth system.

Tech Stack: Django, HTML, CSS, JavaScript, SQLite

2. Real-Time Weather App

Developed a responsive weather forecasting web application using **React** and **OpenWeather API**. Implemented a search feature that allows users to check live **temperature, humidity, and wind speed** for any city. Designed a **modern, user-friendly interface** with dynamic weather icons and smooth UI interactions.

Tech Stack: React.js, HTML, CSS, JavaScript, OpenWeather API

TECHNICAL SKLILLS

Languages & Technologies	**Database Management**	**Tools & Platforms**
HTML, CSS, JavaScript, Python,	MySQL	Git, GitHub, VS Code
